# EGT SENSORS CATALOGUE 2023/24

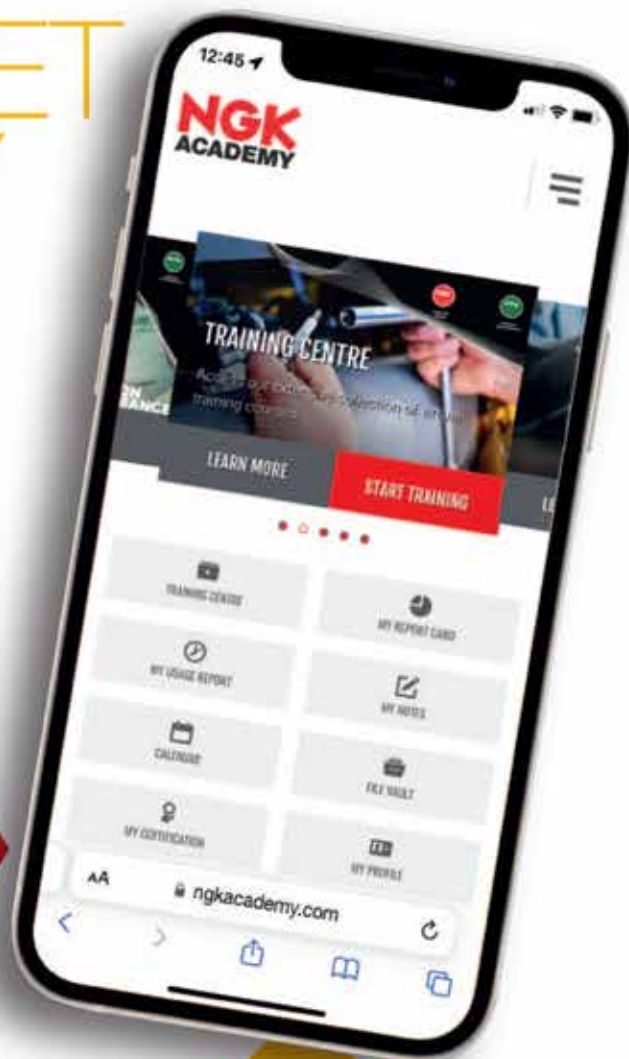

[www.ngkntk.com/uk](http://www.ngkntk.com/uk)

# AT LAST ONLINE TRAINING FOR THE AFTERMARKET THAT REALLY DELIVERS

OUR VIRTUAL ACADEMY

**NGK**  
**ACADEMY**

OVER 270 MANUFACTURER LEVEL  
TRAINING PROGRAMMES COVERING  
EVERYTHING FROM EVs AND HYBRIDS  
TO IGNITION PARTS AND  
VEHICLE ELECTRONICS

## TRY IT FOR FREE

at [ngkacademy.com](http://ngkacademy.com) then get access  
to over 270 training programmes  
from less than £1 a day (+VAT)

Automotive technology's on the move. As a result technicians face more complex challenges than ever before. That's why NGK has teamed up with market leaders OVA to bring to the Aftermarket what we believe is the most comprehensive and cost effective training platform available today. The NGK Academy.

It's training. But not as you know it.

**ngkacademy.com**

ENGAGING  
INTERACTIVE VIDEO  
BASED TRAINING THAT IS  
DESIGNED TO HELP :-

**DEVELOP PRACTICAL SKILLS  
AND EXPAND KNOWLEDGE**

**IMPROVE WORKSHOP PRACTICES**

**BUILD A HIGH QUALITY, MORE  
WIDELY CAPABLE, WORKFORCE**

**GET A BETTER RETURN FROM  
YOUR TRAINING BUDGET**

# VEHICLE ELECTRONICS

This catalogue is intended for vehicles/engines officially imported or manufactured in the UK and supersedes all previous versions, which should be disposed of. Whilst every care is taken in compiling these lists of applications, they are given for general guidance only, and do not constitute any contractual term, representation, or warranty and as such Niterra UK Ltd. do not accept any responsibility in respect of any claim whatsoever and howsoever caused arising from the publication of this catalogue.

NGK and NTK products **distributed by Niterra UK Ltd.** are designed solely for use in automotive, motorcycle, marine, horticultural, agricultural, commercial, industrial, and stationary engines. **They should not be used in aircraft engines.** NGK and NTK products destined for aviation use are likely to differ in specification and should be purchased through the OES parts supplier for the engine.

Specifications subject to change without notice.

**NGK and NTK products listed in these application guides do not apply to racing or modified engines, except where explicitly stated.**

## EXHAUST GAS TEMPERATURE (EGT) SENSORS FROM NTK

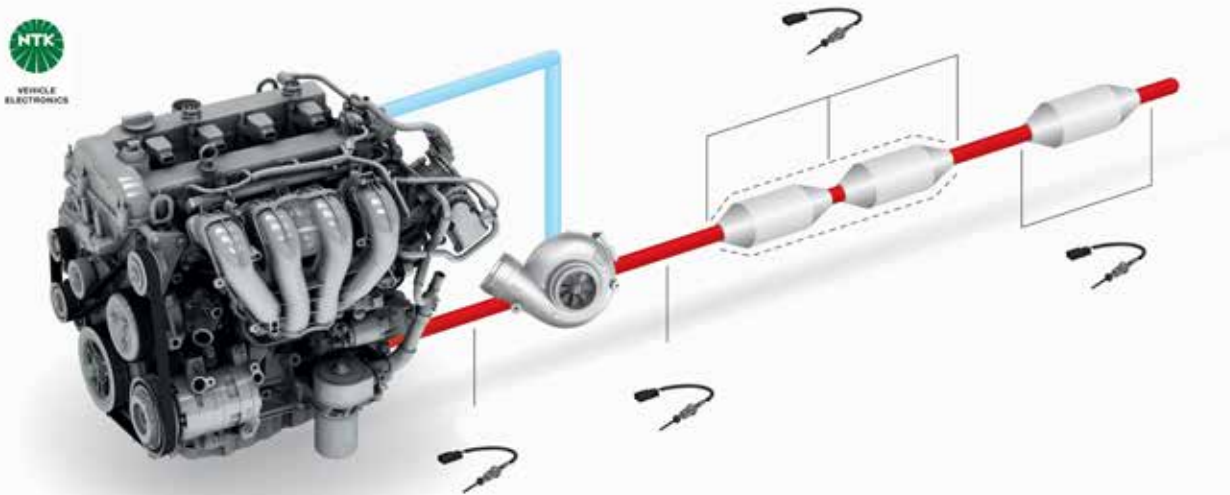

### AN INTRODUCTION TO THE TECHNOLOGY

Exhaust gas temperature sensors are essential in modern vehicles, because they protect vital components that are located in the flow of hot exhaust gas from critical overheating.

Turbochargers, diesel particulate filters and 3-way catalytic converters must be protected from excessively high exhaust temperatures to maintain reliability and emissions control. Modern exhaust after-treatment systems require this protection in regard to efficiency – such as DPF (diesel particulate filters), where the EGT sensors perform a critical role assisting in their regeneration process (the burning of particulate matter that would otherwise block the DPF).

NTK EGT sensors have been developed and supplied to vehicle manufacturers as Original Equipment for many years – first introduced in the mid 1970's. They are extremely resistant to high temperatures and vibrations. Their operation is precise and rapid over a broad range of measurement.

Exhaust gas temperature sensors are utilised in multiple positions on vehicle exhaust systems. Each part number is manufactured for the relevant application and fitment position. The accompanying diagram shows the typical location of EGT sensors.

An EGT is used to monitor the temperature of exhaust gases to prevent damage to components within the exhaust during heat cycles, e.g. DPF re-gen, NOx control. Two types of EGT are produced, Positive Temperature Coefficient (PTC) & Negative Temperature Coefficient (NTC). PTC type increases resistance with temperature rising, NTC type decreases resistance with temperature rising. As a single vehicle can have a combination of these types, it is **CRITICAL** to ensure the replacement item matches the operating principle to prevent ECU fault codes mistakenly generated.

It is **ESSENTIAL** to identify and specify the correct position of the EGT suspected of creating the vehicle issue, to allow accurate part selection. Occasionally NTK sensor positions are catalogued as Post-Turbo, Post-DPF... etc., but most are specified for the component being protected from excessive heat, e.g. Pre-turbo, Pre-DPF, Pre-Cat.

Note for EOBD coding: Vehicle manufacturers have no regulation enforcing position description for EOBD coding. This can lead to variances across vehicle brands for position numbering 1, 2, 3 ... etc. when using scan tools to identify ECU generated fault codes and the location in the exhaust system of the item in question.

### TROUBLESHOOTING:

Typical problems in relation to EGT sensors which affect their operation are:

- Fractured wiring. Always ensure sensors are fitted with minimal stress on the wires. For instance, always disconnect the sensor from the vehicle wiring loom prior to removal and do not reconnect until after fitting to avoid twisting and stress on the wires.
- Heat damaged wiring. Ensure wires are securely routed as far away from heat sources as possible.
- Internal damage to the sensing element. Use the correct installation torque to avoid damage by vibration (tighten to vehicle manufacturers specification or to the torque guidance information included within the sensor packaging).
- Short circuit. Corrosion inside the connector caused by water entering the vehicle wiring loom. Check condition of connector and seal on vehicle loom.

### PRECAUTIONS:

- Always refer to the relevant workshop manuals in case of special installation procedures.
- Ensure vehicle components have cooled sufficiently prior to work being undertaken.
- Internal damage can be inflicted on a sensor if dropped, which may not be noticeable upon fitting. Handle with care.

# NEW EGT SENSOR ADDITIONS TO RANGE

These are new additions to this catalogue that have new part numbers not previously stocked by Niterra UK Ltd.

# AT LAST ONLINE TRAINING FOR THE AFTERMARKET THAT REALLY DELIVERS

OUR VIRTUAL ACADEMY

**NGK**  
**ACADEMY**

OVER 270 MANUFACTURER LEVEL  
TRAINING PROGRAMMES COVERING  
EVERYTHING FROM EVs AND HYBRIDS  
TO IGNITION PARTS AND  
VEHICLE ELECTRONICS

## TRY IT FOR FREE

at [ngkacademy.com](http://ngkacademy.com) then get access  
to over 270 training programmes  
from less than £1 a day (+VAT)

Automotive technology's on the move. As a result technicians face more complex challenges than ever before. That's why NGK has teamed up with market leaders OVA to bring to the Aftermarket what we believe is the most comprehensive and cost effective training platform available today. The NGK Academy.

It's training. But not as you know it.

**ngkacademy.com**

ENGAGING  
INTERACTIVE VIDEO  
BASED TRAINING THAT IS  
DESIGNED TO HELP :-

**DEVELOP PRACTICAL SKILLS  
AND EXPAND KNOWLEDGE**

**IMPROVE WORKSHOP PRACTICES**

**BUILD A HIGH QUALITY, MORE  
WIDELY CAPABLE, WORKFORCE**

**GET A BETTER RETURN FROM  
YOUR TRAINING BUDGET**
